

## Long term care, simplified

The SinguLab® suite of solutions allows long term care facilities, providers, and pharmacies to focus on their top priority – providing unmatched care to their patients and residents. SinguLab consolidates laboratory needs, eliminates unnecessary staff burden, and saves clients' money by providing:

### SinguLab Diagnostics

---

Advanced molecular diagnostic solutions for personalized medicine, infectious disease programs, and antibiotic stewardship

### SinguLab LTC Partner Program

---

An innovative combination of onsite collections, logistics, software, and diagnostic services

### SinguLab Pharmacy Program

---

A personalized medication management program delivering automated and actionable genomic-based medication risk management reporting
